

## **SARAH TURNER**

Proposed by: Johnny Hunt

Seconded by: Nigel Turner

My name is Sarah Turner and I have been the Chair of STAR for the past year. What a year it has been! I have learnt a lot about crisis management and project planning this year but have a lot to still learn. I would like the opportunity to carry forward the work of this year and to implement some of the ideas that we have had. We have worked closely with larger groups of Reading Fans this year and have realised how much stronger we are as a collective.

I was part of the "Sell Before We Dai" campaign and took an active role in the political campaigning. I even went to Parliament to speak to the Select committee on behalf of Reading Fans. We have worked hard to get the media talking about our Club and this work will continue.

Building and maintaining relationships with all fans is the way forward. We need to be the voice for all, not the minority. We will continue to work hard to modernise our thinking and our systems and have plans to make things even better this season.

My strengths are I am a positive person and can remain upbeat at difficult times (this has been tested last season). I have good people skills and find it easy to communicate with a range of people. I am good at networking and relationship building. I would like to finish the job we started!
