

## ADAM AUST

**Proposed by: Sarah Turner**

**Seconded by: Matthew Batten**

I've been a STAR board member for the last two years, and am voluntarily standing for re-election to the board. Over the last few years, I've been in the position to work as the board's Data Protection officer as well as also assisting in the sphere of policy for the Supporter's Trust.

Day to day, I work in operations for a film studio which, whilst not necessarily making me a specialist in any single area, gives me a lot of experience in regards to fingers in multiple pies and allows me to work as well as a supporting utility board member for when anything is needed across various different areas. I think this is my best attribute to be able to bring to the board, and allows me to in effect do my normal job in the sense that I can enable others to do theirs by helping everything run smoothly, through actions such as updating communication methods and file sharing services.

I sit in the South Stand in Club 1871 at the Select Car Leasing Stadium, and also travel fairly regularly to away games - with the demographics of the South Stand, I want to be able to represent these younger fans and help get voices heard both within the club and the supporters trust, and try and counteract the perception of some that the trust is a glorified coach service and help them realise the potential positive impact they can have on the club and the fan base as a whole.
