

NATHAN WAKEFIELD

Proposed by: Wendy Wakefield

Seconded by: Pete Vickery

Dear STAR members,

I'm Nathan Wakefield, a lifelong Reading FC fan, and I am standing for election as the IT Officer on the STAR Board. I believe my professional experience and passion for our club make me well suited to strengthen STAR's digital impact.

Professional IT Expertise

I bring over a decade of hands-on IT experience, with a proven track record of supporting IT users and managing various IT systems. On my LinkedIn profile, you'll see I've held multiple IT roles ranging from Helpdesk Support to IT Manager. IT is a powerful tool, and I love helping everyone get the most out of it.

WordPress and Web Development Skills

Whilst WordPress isn't my strongest skill I know the basics and I learn incredibly fast and would love an excuse to brush up my skills. I've previously worked on ensuring that WordPress and all plugins are kept up to date, installing and customising themes, and updating content

STAR & Reading FC Commitment

As a board member in the past, I understand STAR's governance, mission, and the importance of representing fans' voices effectively. This vision was clearly represented through STAR's support of the #SellbeforeweDai campaign. As a returning season ticket holder I'll be at as many home games as possible able to support with IT issues in the base when required.

I want every STAR member to benefit from a seamless, accessible digital experience—whether they're discussing forum agendas, booking away travel, or staying updated with fan communications.

If elected, I will bring technical excellence, collaboration, and a fan-first mindset to the board. Thank you for considering my nomination.

Up the Ding!

Nathan Wakefield
